## Contract Pharmaceutical Services of Australia

High quality packaging and technical support services  
to the pharmaceutical and healthcare industries

## Highest quality contract services

CPSA satisfies the varying needs of many companies, ranging from small scale one-off runs to on-going large scale contractual commitments.

We can deliver the technical expertise and production capacity to meet your specific requirements.

This can be implemented seamlessly with your own operations and can negate the need to establish and maintain these activities and infrastructure in-house.

## Premium packaging

CPSA excels in the primary packaging of liquids, semi-solids and solid dose forms in a broad variety of formats.

Bottling in glass or plastic and blister packaging in foil/laminate combinations are core activities, as well as many other packaging concepts.

In addition, we have the experience and expertise to accomplish specific configurations such as calendar packs and multi-product blisters.

We offer a unique and impressive list of services in the final packaging of market packs, point-of-sale packaging and promotional products.

Our range includes cartoning, blister sealing, tray packs plus a range of specialized packaging.

## Custom packaging innovation

We cater to your requirements, whether it involves import replacement, repackaging imported product to conform to local requirements, packaging rework, overlabelling, addition of CPis, information sheets to name a small selection.

## Technical expertise and support services

CPSA's expertise ranges beyond packaging. We can advise and assist in the manufacture, formulation and registration process for a wide range of products. We can also provide Release for Supply Compliance.

We have a broad knowledge and experience in all facets of the pharmaceutical process.

## A reputation built on trust

CPSA was established in 1986 to provide cutting edge production processing, manufacturing, warehousing, and technical consulting services to the pharmaceutical and healthcare industries.

Its high levels of technical expertise and highest quality standards have established CPSA as Australia's premier professional pharmaceutical contractor.

A wholly Australian owned company, CPSA has enjoyed long term sustained growth and is recognized as one of the 100 Fastest Growing Small to Medium Enterprises.

CPSA is also active in the Community and prides itself on an outstanding reputation built on trust.

## Leading service

Driven by industry demand for world-class contract manufacturing facilities, CPSA has continually invested in meeting and anticipating the latest industry developments.

From knowledge of leading international advances to specific changes in local compliance issues, CPSA steadily adapts and expands its professional service.

## State of the art facilities

CPSA's purpose-built facility in North Ryde, costing \$25M, features state-of-the-art production design facilities.

The production capability supported by the new facility and its plant and equipment is world class.

The hi-tech building has been designed to incorporate a wide range of energy efficient features with the latest in environmentally sustainable design using active and passive design principles.

## GMP compliance

Licensed by the Therapeutic Goods Administration, CPSA clients include the country's biggest names in pharmaceuticals as well as emerging players in the healthcare industry.

Clients can be confident that products are processed in compliance with the regulations and in strict conformity with the Australian Code of Good Manufacturing Practice for Medicinal Products.

CPSA is also licensed by the Australian Pesticides and Veterinary Medicines Authority.

## Independence & market security

A fully independent company, CPSA does not manufacture or market any products of its own. This provides clients with the safeguards of market security and confidentiality and no conflict of interest.
